Professional Excellence**

# Stay at Home...

## We provide...

- Personal Care and Medical Care
- Fully licensed, insured and bonded care providers
- Thorough background checks and employment history verification
- RN supervision and support
- Medication Management and Administration

Combine our dependable home care services with our nursing care services for complete elderly and disabled care management.

## Confidence...

Northwest Senior Management Services has been serving the Portland, Oregon elderly and disabled and their families for nearly 15 years.

## Comprehensive...

To better serve you NSMS offers three levels of care to meet every in-home care need.

**Standard Care** offers basic services from companionship through personal care. This level of care will keep an elder confident and independent for as long as possible. Care is provided by experienced caregivers and Certified Nursing Assistants (CNA).

**Complex Care** provides more advanced care for specialized needs such as spinal cord injuries, end stage dementia care or complex hospice care. This is also an excellent option for those needing an extra boost of confidence and care after release from a rehab center or hospital. Care is provided by CNAs and Licensed Practical Nurses (LPN).

**Acute Care** offers round the clock private nursing care with services provided by LPNs and RNs. This option allows a client to receive very specialized, advanced care in the comfort and privacy of their own home.

## Staffing...

Our reliable and skilled care providers have been trained in all areas of care for the elderly and disabled. The care-staff are supervised by our Registered Nurses.

When health issues are a concern, members of nursing staff are available 24/7 to provide support directly to our clients or to our care providers. Our nurses are able to provide direct care and advice to those who have contracted for nursing services. They provide advice and consultation to our care providers and other healthcare professionals.

All caregiver placement is handled by our Scheduling Department. There is never any need to carry the weight of responsibility that comes from trying to manage all the details of care and employee management. Our Scheduling Department is on the job 24/7. We have you covered.
